Current Responsibility

Susanne van den Dolder is a consulting actuary in the Amsterdam office of Milliman. She has been engaged in a wide range of projects related to insurance and risk management. She joined the firm in 2019.

Professional Work Experience

With over four years of experience, she has acquired expertise in developing and implementing models for determining technical provisions and risk capitals (Solvency II). Additionally, she has actively contributed setting up various reports and documentations. She enjoys translating complex quantitative analyses into understandable insights.

Professional Designations

Fellow Royal Dutch Actuarial Association (AAG)

Education

- Executive Master of Actuarial Science, Actuarial Institute, The Netherlands
- Master of Econometrics, Operations Research and Actuarial Science, University of Groningen, The Netherlands
- Bachelor of Econometrics and Operations Research, University of Groningen, The Netherlands

Affiliations

Teacher on Health actuary of the Actuarial Practice Cycle (final year before qualification) at the University of Amsterdam.
